

VDVII

Voice, Data and Video Cable Verifier

More than just a wiremapper

The new VDV II Series are easy to use cable testers that check the integrity of copper cables commonly found in domestic, commercial or industrial voice, data or video installations, including telephone wiring, data network and video/security cabling.

Employing state-of-the-art technology, VDV II offers functionality not previously available in a wiremapper. The advanced wiremap engine accurately displays complex wiring faults instantaneously while the integrated TDR (Time Domain Reflectometry) simplifies troubleshooting and improves on-site productivity.

VDVII

Performs standard tests for copper cabling, including:

- Coax, 6Pin (RJ11/12), 8Pin (RJ45) Connectors for Copper Cable Testing
- Wiremap for Miswires, Split Pairs, Shorts, Opens, and Crossover (A/B) Cables
- · Analog Tone Generator
- · Voltage Protection
- Shielded Cable Testing
- Single Screen Results

VDVII Plus

All the features of the VDV II including:

- Larger 2.9" Display
- Backlight
- · Hub Blink
- Cable Length
- Distance to Open
- Carry Case, Cables & Adapters

VDVII Pro

All the features of the VDV II Plus and...

- Distance to Open / Short (TDR)
- PoE Detection with Voltage Information
- Phone Service Detection (PBX, ISDN)
- Ethernet Detection with Network Rate and Duplex Information

Wiremap with length

Accuracy

The flagship VDV II Pro utilizes a TDR to accurately measure cable length and provide distance to fault information. TDR's work by injecting a signal into the cable and measuring the time for any signal to be reflected back after encountering changes in impedance caused by cable damage, open and short circuits. The recorded time is then translated into an accurate distance measurement. TDR helps to pinpoint where cabling faults occur. This speeds up fault finding as well as minimising disruption and potential damage to fixtures and fixings.

Coax testing

Speed

Service detection

With comprehensive details on faults such as opens, shorts, reverses, miswires and split pairs, VDV II identifies wiring errors instantly. The integrated RJ11/RJ12 (voice), RJ45 (data) and F-Type (video) connectors allow faster testing of most types of low-voltage cables by eliminating the need for separate testers or adapters.

Intelligence

Connection issues are not always associated with cable faults, so VDV II Pro has the capability to help identify service related issues. By detecting the presence of voltage and checking polarity, VDV II Pro quickly determines which type of media service is running over the cable, such as ISDN, PBX and PoE (Power over Ethernet) resulting in faster fault diagnosis. Troubleshooting active Ethernet networks is also made easier with in-built network detection that displays network rate and duplex information. Furthermore, to prevent potentially costly damage to the tester all VDV II's are smart enough to know when they have been plugged into an outlet where non-standard voltage is present.

Applications

VOICE
Support for 1, 2 or 3-pair RJ11/12
telephone cable testing

DATA
Testing of shielded and unshielded
Cat 5/5e/6/6,/7 LAN cable

VIDEO
Tests coax cable through
F-connector interface

Voice, Data and Video Cable Verifier

More than just a wiremapper

Ordering Information

VDV II Range				
Part No.	Kit Contents			
R158000	VDV II - Voice, Data and Video Cable Verifier. Includes 1 x tester, 1 x dual port remote unit, 1 x coax remote unit, 1 x alkaline battery, 1 x multi-language user guide.			
R158002	VDV II Plus – Voice, Data and Video Cable Verifier. Includes 1 x tester, 1 x dual port remote unit, 1 x coax remote unit, 1 x alkaline battery, 1 x multi-language user guide, 2 x RJ45 to alligator clip cable 15", 2 x screened RJ45 to RJ45 cable 6", 2 x RJ11/12 to RJ11/12 cable 4", 1 x F-type plug to F-type plug cable 9", 1 x F-81 barrel splice, 1 x BNC female to F-type male adapter, 1 x BNC female to F-type female adapter, 1 x RCA female to F-type female adapter, 1 x RCA female to F-type female adapter, 1 x carry case.			
R158003	VDV II Pro – Voice, Data and Video Cable Verifier. Includes 1 x tester, 1 x dual port remote unit, 1 x coax remote unit, 1 x alkaline battery, 1 x multi-language user guide, 2 x RJ45 to alligator clip cable 15", 2 x screened RJ45 to RJ45 cable 6", 2 x RJ12 to RJ12 cable 4", 1 x F-type plug to F-type plug cable 9", 1 x F-81 barrel splice, 1 x BNC female to F-type male adapter, 1 x BNC female to F-type female adapter, 1 x RCA female to F-type female adapter, 1 x RCA female to F-type female adapter, 1 x wallet wiring card, 1 x carry case.			

Basic Specifications

Dimensions (in)	Weight	Battery Type	
6.3 x 3.0 x 1.4	.58 lb	9V alkaline. Typically 20 hours minimum continuous use (backlight off)

Optional Accessories

Part No.	Kit Contents				
158050	CO CO CO CO CO CO CO CO	Kit of 12 x RJ45 remote units* (#1 - #12)			
158051		Kit of 24 x RJ45 identifiers** (#1 - #24)			
158053	000000	Kit of 12 x coax remote units* (#1 - #12)			
62-164		Amplifier Probe			

- * Separate numbered remotes allow faster pass/fail testing of multiple cables
- ** Multiple identifiers simplify cable and port identification at the patch panel
